2/13/2025

Attn: FWE Users, Distributors and Partner Representatives,

**RE: Pending 4/15/25 Price Increase**

In consideration of the unfortunate, continued increases in transportation, component, and labor costs, FWE will be implementing a price increase on our products effective 4/15/25. All orders received prior to 4/15/25 marked for immediate shipment will be honored, as will any FWE produced project quotes as dated.

The exact increase percentages are variable by product category, but the overall average of the increase will be 3%.

As always, FWE is committed to being a long-term partner to our end-users, distribution partners and independent representatives. We are working to absorb as much of the increases as possible through manufacturing efficiencies and additional investments in automation but must be prudent in passing along some of the increased material and production costs to maintain the level of service and quality expected from FWE.

Thank you for your continued support of FWE.

Best Regards,

Travis Hartley; CFSP
