## **Subject:** Price Adjustment Effective February 1<sup>st</sup>, 2025

Hello Montague Business Partners,

We are excited to announce that we have raised the bar and improved the standard Montague Legend-series range line going into the 2025 year.

After decades of painted sides, our heavy-duty equipment will now have standard stainless-steel side construction and, when applicable, stainless-steel burner boxes. The angle-iron framework is still there, the industry leading star burner is still there and of course, our counter-balance door structures are still there as well!

As of February 1, 2025, Montague will be issuing a new List Price Schedule reflecting these changes to the Legend-series line as well as price adjustments to the remainder of our equipment products such as Vectaire-series and Apollo-series convection ovens and Hearth Bake-series pizza ovens. The overall impact across the board will average approximately 8% - 9% overall.

### **Important Order Information:**

Orders placed on or before **January 31, 2025**, and scheduled for immediate shipment, will not be subject to the 2025 price adjustment. All orders received on February 1<sup>st</sup>, 2025 or after will be subject to the 2025 price adjustment.

We greatly appreciate your understanding and continued support. Should you have any questions or need assistance, please don't hesitate to reach out to your local manufacturer's rep or contact us directly at 800-345-1830.

Thank you for your continued. We look forward to serving you in 2025 and beyond.

Sincerely,

Ryan Dusheiko  
Vice President of Sales & Marketing  
The Montague Company
